

# ***Spectrum Committee***

***Availability of Radio Spectrum for Land Mobile Services is fundamental to the existence and future development of the Australian Radio Communications Industry. In support of the broader industry and its members ARCIA ( RSC) Radio Spectrum Committee has been established.***

## ***Mission***

***To provide representation to ACMA and other parties for the allocation of suitable and adequate radio spectrum to meet the continued growth of the industry in a free market and competitive environment.***

## ***Key Actions***

- represent the interests of ARCIA in planning and policy matters***
- provide an industry voice to secure adequate radio spectrum***
- assist ACMA with communicating regulatory and compliance issues***
- actively pursue new allocations that foster industry innovation and enable the provision of competitive solutions to the Australian market***
